## Gaskets

A comprehensive range of cut gaskets available in 1.5mm and 3.0mm thick to suit ASA and BST flanges.

### Material:

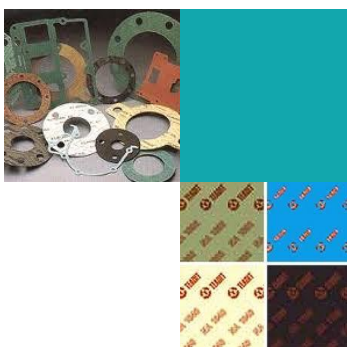

- NA1002
- NA1005
- NA1122
- GE1520
- Rubber Insertion for BST

## Gasket Sheet

A range of gasket sheeting available in various thicknesses from 0.3mm to 3.0mm

### Available Materials:

- NA1002
- NA1005
- NA1100
- NA1122
- GE1520
- GR1520
- TEALON TF-1590
- Expanded PTFE sheet

## Spiral Wound Gaskets

A metal style gasket with a 316SS and flexible graphite sealing element. Recommended for applications where internal pressures exceed those of a fibre gaskets handling capabilities. Ideal for standard flanges, heat exchangers, boiler and other high temperature and pressure applications

### Available Styles:

- SOR – Spiral Outer ring only
- SIO – Spiral Inner & outer ring
- SWR – Spiral ring only (sealing element)

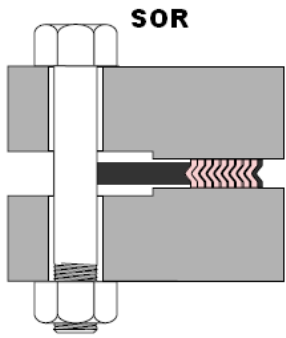

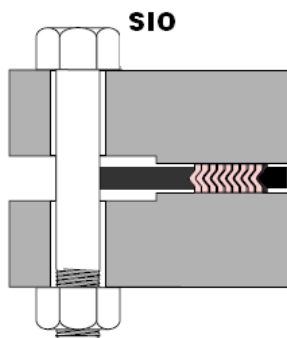

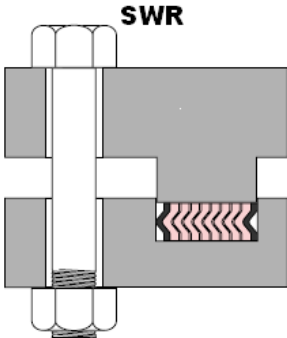

Sealing Solutions can easily assist you with correct gasket selection to suit your application
